Tank Filter
33 2332 2000

Tank filter for
WMF 1000!, WMF prestolino! and WMF presto!
coffee machines with water tank to reduce
scaling and improve water quality
Optimal flavour
Excellent coffee flavour – made with pure
water for consistent coffee quality
Extends the life of the high-quality
coffee machine components
Lower servicing and maintenance costs
Filters out, bonds, absorbs and reduces additives in water
Easy to install

Your WMF coffee machine calculates and
displays, when it's time to change the filter

You should change the filter, when shown on
the display and latest after 3 months

Grouts Separator
03 9011 0001

Simple, clean, fast, reliable solution for collection
and disposal of coffee grouts
The grouts sensor causes a message to be displayed
when the container is full
Includes a grouts collector

If connected to a WMF Programat GV,
an additional assembly kit is necessary

Additional grouts containers can be
ordered by quoting 03 9011 1001

Capacity	12 litres
Height	579 mm
Width	314 mm
Depth	440 mm
